MLS – Microscopy LED Light Source

Longer Life, Lower Energy Consumption, Higher Performance, Compact Design

The SCHOTT MLS offers several advantages over other types of fiber optic light sources used in microscopy & static machine vision applications, including:

- Long-life of LED light engine
- Fan-less, vibration free operation
- Fits all COLDVision light guides
- Stable light output with minimal variation in color temperature
- Low power consumption (~18 watts)
- Small footprint and world-wide, universally compatible power supply with interchangeable plugs
- Optional light On/Off control via handheld remote or footswitch. Handheld remote also controls light output intensity.
- Mounting Options (sold separately):
 - Pedestal Mount
 - Post Mounts
- Temperature monitoring for protection of the LED light engine
- RoHS Compliant & CE Approved. ESD outlet connection.
