

FF28LWHVAC

24.88" x 18.5" x 17.75" (H x W x D)

Compact medical all-refrigerator for temperature stable medical storage, with digital thermostat, lock, self-closing door, temperature alarm, and internal fan

Highlights:

Medical grade design conforms with CDC guidelines for vaccine storage

Specialized interior design protects stored contents when the door is open

Automatic defrost with an internal fan for stabilized cooling designed to stay within 2°C of set temperature

Product Features:

Improved temperature stability	Interior is designed to operate within 2°C of set temperature performance
Interior drawer covers	Two shelves are protected by metal door flaps that help to protect stored contents from being exposed to room temperature when the door is opened
Digital thermostat	Electronic controls ensure precise and intuitive temperature management
High/low temperature alarm	Audible alarm sounds if the interior temperature rises or falls out of set range
NIST calibrated temperature display	Alarm includes NIST calibrated display of the current interior and high/low temperature
Self-closing door	Door closes automatically when opened at angles less than 90° to prevent the interior from being exposed to room temperature
3/8" access port	Unit comes with a factory installed probe hole for users to connect their own monitoring equipment
Hospital grade cord and plug	Secure three-pronged 'green dot' cord for added unit safety in high traffic settings
Automatic defrost	Reduced maintenance with auto defrost system
