

- Heavy-duty, high strength, chemical, and corrosion resistant, 316 stainless steel
- Mirror polish on inner and outer surfaces
- Fully welded to remove crevices and dead spaces
- Easy to clean hygienic design
- Corners are radiused in line with GMP guidelines
- EZBio® Stainless Steel Funnels are available in sizes ranging from 60mm to 200mm
- EZBio® Stainless Steel Pharma Scoops are available in sizes ranging from 10mL to 2.5L

Foxx Life Sciences EZBio® Stainless Steel Funnels and Pharma Scoops are made of high-quality, corrosion and chemical resistant, 316 Stainless Steel. These superior products meet or exceed the high safety and regulatory compliance requirements in production and sampling for the pharmaceutical industry. The hygienic design and mirror finish make them easy to clean with no crevices or sharp edges.

EZBio® Funnels are ideal for all types of work from the laboratory to production and is especially suited to pour liquids, powders, and other ingredients. Product has an air channel designed for unobstructed flow. EZBio® Pharma Scoops are excellent for both lab and production work, especially for powders and granules.

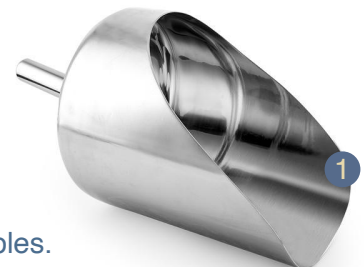

EZBio® 316 Stainless Steel Funnel

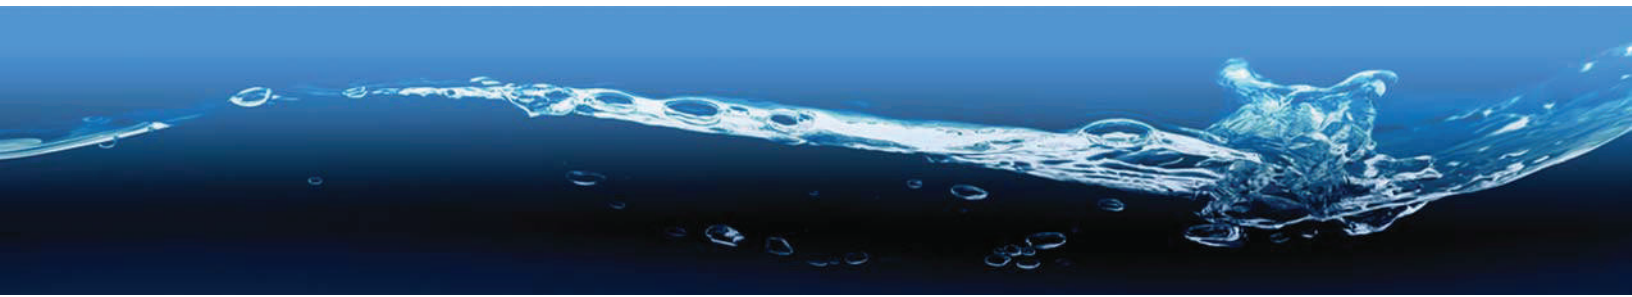

- 1 Depending on the diameter, this pouring aid is suitable for dispensing applications, from small amounts in laboratories to large quantities in industry
- 2 An air channel ensures a complete, unobstructed flow

EZBio® 316 Stainless Steel Pharma Scoop

- 1 EZBio® Pharma Scoops are made of 316 stainless steel without edges, crevices or undercuts in which sample residues could collect and contaminate subsequent samples.
