

- Available in clear and amber options
- Sizes range from 100 mL - 50 L
- Polypropylene cap has highest temperature rating in the industry, 142°C
- Industry standard GL45 thread, compatible with Autofil™ Bottle-Top Filters and EZBio® Single-Use Cap Assemblies
- Large, visible writing surface on bottle for additional labeling; white graduations for identification of approximate volume; retrace code for identification
- **PUREGRIP®** Rhino Bottles are made from 3.3 Borosilicate Glass is mechanically strong, chemically resistant, and withstands thermal shock
- VersaCap® are autoclavable and complies with USP-VI\*
- Minimal Thermal Expansion, Giving Relatively High Resistance To Temperature Changes

**PUREGRIP®** Rhino Round Safety Coated Glass Bottles and carboys combine the leading quality of 3.3 Borosilicate Glass with the patented advantages of the new Foxx GL45, 83B and 120mm Versa-Cap® to produce a true leap forward in laboratory glassware. Ideal for mixing, storage, and transportation of media, buffers, chemicals, and solvents.

**PUREGRIP®** The Safety plastic coating ensures safe handling and containment even when dropped and damaged. **PUREGRIP®** Rhino Bottles and carboys offer versatility across a wide variety of laboratory needs. And with Foxx's revolutionary GL45, 83B and 120mm polypropylene VersaCap®, **PUREGRIP®** Rhino Bottles and carboys are substantially easier to hold securely, improving lab safety and containment.

- 1 0.3-0.5mm Thick Safety Coating
- 2 Frosted surface on top of cap for convenient labelling
- 3 Large, visible writing surface on bottle for additional labelling
- 4 White graduations for identification of approximate volume
- 5 Patented SECUREgrasp® technology built into cap for ultimate ease of handling, especially with gloved hand
- 6 USP Class VI, Animal-Free Polypropylene VersaCap® and Pouring Ring for leakproof, drip-free dispensing
- 7 Glass bead indicates full capacity Level
- 8 Sloped shoulders for smooth, natural pouring motion

Our facility QMS is approved by an accredited registering body to the appropriate ISO 13485 Quality Systems Standard
