

- **EZBio® TR Carboys** are available in sizes 5L, 10L, and 20L
- Available in HDPE, PC, PETG, and PP FDA 21 CFR 177 Grade materials
- Sanitary Tops are available
- Molded with ultra-pure USP Class VI resins
- **EZBio® TR Carboys** are cleaned, triple inspected, and double bagged
- Patented 83B VersaCap®
- Manufactured in an ISO 13485 Facility in North America

Gamma Sterilized in USA

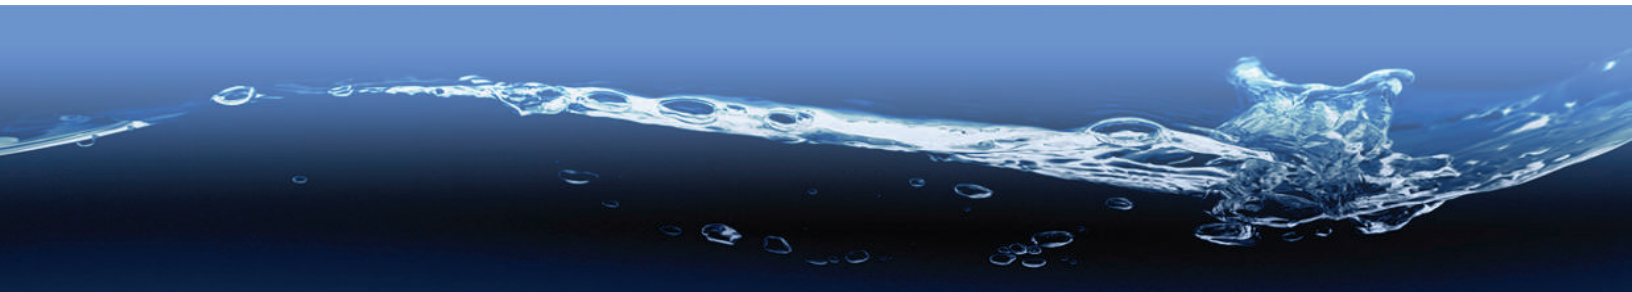

Foxx Life Sciences' **EZBio® Titanium Round (TR) Carboys** are advance fluid handling systems developed with the end user in mind. The **EZBio® TR Carboy** serves as a highly versatile container suitable for all fluid management applications. The **EZBio® TR Carboy's** are molded with ultra-pure USP Class VI resins, FDA 21 CFR 177 Grade materials and are available double bagged, sterile or non-sterile.

These Round Carboys are perfect for applications that requires homogeneous mixing. The shape eliminates any pockets of undissolved material that square carboys might develop due to uneven corners.

Additionally, the **EZBio® TR Carboys** can be coupled with the Foxx Life Sciences patented VersaCap® Technology, providing interchangeable and leak-proof connections. The VersaCap® is molded not machined, eliminating particulates and defects. With a wide variety of adapter inserts to meet your application needs.

- 1 83B VersaCap® Technology
- 2 Max fill capacity molded on the Carboy
- 3 Easy-to-read metric graduation marks certified to $\pm 5\%$ accuracy
