

- **EZLabpure™ Round Carboys** are manufactured using high purity virgin USP Class VI FDA grade HDPE and PP
- These carboys are used for storing and shipping reagents, chemicals, culture media, and standards
- Level bottom for homogenous mixing solutions
- HDPE carboys are excellent chemical resistance, making it ideal for most buffers and reagents as well as powders and solids
- PP Carboys are autoclavable at 121°C for twenty minutes

Caution

- Autoclave carboy, cap, and spigot separately

Foxx Life Sciences offers a premium line of high quality, round HDPE and polypropylene (PP) laboratory carboys with the patented VersaCap® technology. These durable, rugged and shatterproof round carboys are a great alternative to glass carboys. They can be used for mixing, storing, and dispensing liquids in volumes from ten to fifty liters. These carboys are available with and without a spigot.

EZLabpure™ Round Carboys are compatible with Foxx's patented VersaCap® that is leak-proof, has replaceable platinum-cured silicone gaskets, and provides the ultimate flexibility. The open VersaCap® allows a variety of configurations by changing the adapter insert, enabling users to quickly change the top connections of each carboy or bottle to match their application needs.
