

RingSeal™

NEW!

Cryogenic Vials

*Your optimal solution for
secure and efficient long-term
sample storage.*

RingSeal™

Cryogenic Vials

RingSeal™ Cryogenic Vials are an excellent choice for long-term sample storage. Built with reliable o-ring seals, this exceptional range offers multiple variants to meet diverse research needs.

Globe Scientific's RingSeal™ Cryogenic Vials are available in both internal and external thread options, as well as self-standing and round bottom formats, and are offered in the most popular volumes.

*Optional color coded cap inserts aid in sample identification.
(Available separately.)*

NEW!

External Thread Vials

Key Features and Benefits:

- **Leak-Proof Design:** RingSeal™ Cryogenic Vials provide leak-proof protection up to 90kPa, safeguarding against potential leaks or contamination
- **O-Ring Seals:** Reliable o-ring seals effectively protect samples within a wide temperature range, from -196°C to 121°C
- **Round Bottom and Self-Standing Options:** Choose between round bottom and self-standing vials based on your specific requirements
- **Certified Purity:** Certified DNase, RNase, and Pyrogen-free vials ensure the integrity and cleanliness of your valuable samples
- **Internal and External Threads:** Available internal and external thread options allow compatibility with a variety of laboratory processes
- **Large Writing Area:** Large writing area aides in convenient sample identification and organization
- **Autoclavable:** To ensure efficient sterilization while maintaining their structural integrity

RingSeal™ Cryogenic Vials

Specifications :

- Material: Virgin Polypropylene
- Leak Proof Tested: 90kPa
- Temperature Range: -196°C to +121°C
- Purity: Certified Rnase, DNase and Pyrogen Free
- Sterile: Yes
- Autoclavable: 121°C for 15 minutes
- Graduations: Yes
- Writing Area: Yes

Our complete cryogenic vial offering ...

Globe Scientific has the perfect cryogenic vial to meet your needs and budget.

Good:

diamondESSENTIALS™

Our entry level cryogenic vial offering with plug seal style cap and 85kPa.

Better:

RingSeal

Our classic style offering, with traditional o-ring seals and 90kPa.

Best:

CryoClear™

Our top of the line cryogenic vials, all the certifications one could wish for, with a TPE seal and 95kPa leak-proof testing.
