

designed for scientists

HF.Si.20.200.50

/// Data Sheet

Heatingfluid based on Siliconoil

Temperature range in open and closed bath vessels (HBC, CBC): 20 – 200 °C

Temperature range in closed bath vessels (HBC, CBC): for a short time 20 – 250 °C

Viscosity at 25 °C: 50 mPa

Color: clear

Quantity: 10 kg

designed for scientists

Technical Data

Weight [kg]	10
Permissible ambient temperature [°C]	5 - 40
