## **IKAFLON 50 glass round (5 pcs.)**

/// Data Sheet

Dimensions (L x Ø): 50 x 8 mm

The round, glass-coated surface prevents the penetration of contaminated materials.

Smooth surface, easy to clean.

Glass bars prevent the absorption of solution.

Round, glass-coated stir bars are suitable for highly abrasive media and high-temperature applications for which PTFE is unsuited.

The main application is high-purity work or trace analysis.

designed for scientists

#### Technical Data

|                                      |          |
|--------------------------------------|----------|
| Length [mm]                          | 50       |
| Diameter [mm]                        | 8        |
| Shape                                | round    |
| Coating                              | glass    |
| Material in contact with medium      | glass    |
| Material: Magnet                     | Alnico V |
| Magnetic attraction force            | normal   |
| Working temperature max. [°C]        | 525      |
| Weight [kg]                          | 0.046    |
| Permissible ambient temperature [°C] | 5 - 525  |
