SHEET 6 OF 9	

Nanodyne Replacement Illuminator for Nikon Alphaphot Microscope Installation Instructions - Step 6. Install hex standoffs and condenser lens.

Thread the hex standoffs into the holes, as shown above. Do not tighten them all the way, as some play is needed in order to re-insert the condenser lens.

Re-install the condensing lens and then fully tighten the hex standoffs.

Nanodyne Replacement Illuminator for Nikon Alphaphot Microscope Installation Instructions - Step 7. Install Nanodyne illuminator.

Photo 7a

Photo 7b

Install these screws.

Plug the power supply into the lighting unit, as shown. Also, connect the cable from the potentiometer to the socket on the circuit board. The connector will only seat one way, so do not force it in if it does not fit.

Install the light assembly by inserting and tightening the provided screws, as shown.
