

Mounted Fume Arm

Model # SS-004-MFA

The **Mounted Fume Arm** is an easily portable extraction arm that is lightweight and can quickly be adapted to a remote work area where a conventional fume extractor may not be practical. When connected to a Sentry Air Systems portable fan unit or shop exhaust, the mounted fume arm can be clamped to a table or used in other makeshift or temporary work areas. The mounted fume arm utilizes a fire retardant 4" diameter hose and is designed for *soldering, brazing, TIG Welding or other light particulate/chemical fume removal*. This arm can also be utilized for a multi-station 4" Mounted Fume Arm operation by connecting it to a central exhaust or large filtration air handler.

**4" Diameter
45" L Flex Arm**
