

10' Mounted Heavy Duty Extractor Arm

Model # SS-010-HFA

The **10' Mounted Heavy Duty Extractor Arm** provides a flexible and rigid source capture fume extraction arm designed to mount to a fume extraction stand or a wall mount bracket. The **Mounted Heavy Duty Extractor Arm** is completely self-supportive with a rigid hinged segment that provides mechanical support and the ability to hold any angle from vertical to 90 degrees without assistance.

The **Mounted Heavy Duty Extractor Arm** is also available in 7' and 12' lengths with single or dual arm configuration. The **10' Mounted Heavy Duty Extractor Arm** can be rotated 360° when mounted to a floor stand or 180° when mounted on the wall. This space-saving design provides flexibility and reliability for high heat applications such as *welding and soldering, as well as chemical fume control, light powder extraction, and a variety of other procedures performed in laboratory, manufacturing, construction, and medical industries.*

10' Mounted Heavy Duty Extractor Arm
