

12' Heavy Duty Extractor Arm

Model # SS-012-HDA

The **12' Heavy Duty Extractor Arm** provides a flexible and rigid source capture fume extraction arm designed to mount to a Sentry Air Systems air filtration unit, a fume extraction stand, or a wall mount bracket. The **Heavy Duty Extractor Arm** is completely self-supportive with a rigid hinged segment that provides mechanical support and the ability to hold any angle from vertical to 90 degrees without assistance.

The **Heavy Duty Extractor Arm** can be used for high heat applications such as *welding and soldering, as well as chemical fume control, light powder extraction, and a variety of other procedures performed in laboratory, manufacturing, construction, and medical industries.*

The **Heavy Duty Extractor Arm** is also available in 7' and 10' lengths with single or dual arm configuration. The **12' Heavy Duty Extractor Arm** can be rotated 360° when in a single arm configuration on 500 and 550 units. For dual arm configurations, the **12' Heavy Duty Extractor Arm** has a 180° radial access. The **Heavy Duty Extractor Arm** is also available in an inverted configuration to allow mounting to a fume extractor stand [SS-091-FES] or wall mount bracket to save benchtop and floor space.

12' Heavy Duty Extractor Arm
